

## We Know Fruit. We Grow Fruit

We've been growing fruit since way back in 1843 when great-great-grandpa Joseph B. Chiles came to the Sacramento Valley. **Five generations later**, we started Branch to Box with the mission to bring you the freshest & tastiest stuff nature has to offer.

## It's Healthy.

Recent studies have shown that fruit is healthy – we tend to agree with those studies. Whether its fresh fruit, dried fruit, or nuts, each box is packed full of healthy and tasty treats from nature.

If you're planning to start an office health initiative, Branch to Box is your answer. Email [service@branchtobox.com](mailto:service@branchtobox.com) or call **(866) 293-4037** to get started.

## It's Convenient.

Healthy snacking can be hard – We make it easy. **Each week is a new mix of the best seasonal fruit and healthy snacks** – delivered right to your doorstep.

Simply choose your delivery day and frequency, and we will handle the rest.

As for billing, every time we ship your box, we email you (or accounts payable) a receipt. If you'd prefer invoicing we can handle that too.

## Awesome Service.

First of all, when you call or email, a real human will answer. We are excited to help you with whatever your needs are. Whether it's accommodating a nut allergy, changing your delivery day, or even pausing your subscription, our fruit experts are happy to help.

Drop us a line at [service@branchtobox.com](mailto:service@branchtobox.com).

## Bang for your Buck\$.

Healthy snacking can get pricey – we make affordable tasty servings as low as \$1.15 per serving, delivered.

It's not just about the money you spend – it's about the money you save. [This Harvard study](#) shows every \$1 spent on employee wellness results in a healthcare cost savings of \$1.41

Oh and another thing: **Always free delivery.**

## No strings attached.

Let's just be fruit with benefits. No funky contracts that make it impossible to stop your subscription. We make it easy for you to cancel, upgrade, or pause your subscription. Simply shoot an email to [service@branchtobox.com](mailto:service@branchtobox.com) or call us at **(866) 293-4037**.

## Quality. Guaranteed.

Unlike our competitors, we grow most of our fruit. This allows us to get you the best fruit – from our branch to your box. The fruit that we don't personally grow, we get from partner growers that we've established over the last 5 generations.

Shipping fruit can be a bit tricky – we know this first hand, and that's why **we guarantee each box we send**. If for whatever reason you're unhappy, our Awesome Service people will make it right.

## Boost Morale.

Everyone likes food in the office. Invest in your employees, by having some healthy brain food from Branch to Box. Boost morale and productivity in one whack. Change the culture of the office by having a fun and interactive box that arrives every week.

## We're (environmentally) responsible.

Our packaging is green – literally and figuratively. We ship using recyclable corrugated boxes, and our eco-friendly fruit pads are made up of shredded newspapers & phonebooks. (If you decide to verify this, be careful when you cut the pad open..it can be messy!)

Your box is packed in a building covered with solar panels.

We also use sustainable farming practices like drip irrigation and integrated pest management.
